No 2,823 — Eleventh Year. BUENOS AYRES, WEDNESDAY, OCTOBER 11, 1871. Circulation, 3000.

MAUA BANK,

101—105 CALLE CANGALLO

The Officer of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank :—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours previous notice is required to begiven to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brasils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m till 3 p.m.

MIXTURA PARA TERCIANAS
DE JAYNE,
A CERTAIN AND EFFECTUAL REMEDY
For Fever and Ague, Intermittent and Remittent Fevers, &c.

This class of diseases, so common in all part of the world, and specially prevalent in malarious districts and vicinage of water courses, are almost invariably accompanied by more or less derangement of the liver, and frequently by a defective action of the digestive organs.

The mere breaking of the Chill is but a step towards completing a radical cure. The various organs of the body, especially the stomach and liver, must be brought to a healthy and vigorous condition before a permanent cure can be established, and this fact has been specially kept in view by Dr. Jayne in his treatment of these complaints. The use of Jayne's Ague Mixture in conjunction with the Sanative Pills, as prescribed in the directions which accompany each bottle, will not only

Break up the Chills,

But restore the system more particularly the liver and stomach, to a sound condition, and so prevent a relapse of Fever and Ague, by thoroughly

Eradicating the Dissase,

And the best evidence of this is the invariable success which has always followed the administration of these remedies, as attested by the certificates published annually in Dr. Jayne's Almanac, and the wide-spread popularity of the Ague Mixture in those districts of the United States, where these diseases, for which it is adapted, most prevail.

All Dr. D. Jayne's Family Medicines are prepared only at 242 Chestnut-street, Philadelphia, and are sold by Druggists everywhere.

NOTICE TO SHIPOWNERS AND SHIPMASTERS.

The Marino Railway at Colonia being in working order, public attention is called to the following Tariff of Charges, a deduction of 25 per cent. having been made since the 1st of July, 1871 :—

Sailing Vessels and Steamers of over one hundred [100] tons, English or American builder's measurement, will pay a rate of seventy-five (0.75) cents per ton gold, for being taken up. Each nominal horse power of engine in steamers, will be charged for as an additional ton of measurement.

Sailing Vessels or Steamers, whose entire registered tonnage and horse power of engine does not equal one hundred (100) tons, will pay the rate of one hundred [100] tons.

All cargo will pay one dollar, twelve and a-half (112½) cents in gold, per ton, for being taken up, and the regular rates for laying on.

For laying on the Railway, from the hour the Vessel or Steamer is properly up, for each twenty-four (24) hours, fifty-six and a-quarter (56¼) cents. per ton, in gold, and any twenty-four (24) hours entered upon will be charged as a full day.

Vessels and Steamers must be provided with sufficient crew and lines while being moved into or out of the cradle.

Wrecked Vessels or Steamers, whose bottoms are broken, will not be taken at the regular rates, but must make an especial agreement with the Company's Agent at Colonia.

No charge will be made while laying on, for Sundays or stormy days, when no work can be done below the load line of the Vessel or steamer.

Railway Bills must be cashed, or acceptably provided for, before the Vessel or Steamer will be launched, and any detention of the Railway for the settlement of Bills will be charged at full rates.

A fine Machine Shop, Blacksmith Shop, and Brass Foundry connected with the Establishment. Machinists, Boiler-makers, and Shipcarpenters always on hand; and Shipowners will find it to their advantage to have all their work contracted for at the Dock.

The Company have immense Barracas ready for the storage of cargoes, with Wharves, Launches, &c.

THE TRUE
THEORY OF PURGATION,
Applied to the
Liver, Kidneys, Skin, Stomach, and Bowels.

DR. RADWAY'S
Perfect
PURGATIVE PILLS,
Perfectly tasteless—Elegantly Coated.

'Materia Medica' contains, in its repertoire, many purgative and cathartic agents that, for ordinary purposes, opens the bowels, and through what is called a 'perisaltic' movement, purges from the alimentory canal the fæces, and this is all. Such agents, for the purpose of cure, or removal of any settled cure, are perfectly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purpose of a Purgative, Aperiant, Counter-irritant, Alterative Pill, that can be taken or administered with the absolute certainty of securing thorough evpulsion of all decayed and decomposing element of the human body, and also safe to take in the most malignant of Eruptive Fevers. In cases where the mucuous membranes of the internal viscera are suffering from Ulceration, Inflammation, or from

LIVER
Gastric, Biliary, Pancreatic Complaints,

Dr. RADWAY'S PILLS
Supply the only Vegetable substitute for
CALOMEL OR MERCURA.

In Radway's Pills you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner. As a proof of this—You are seized with a bilious attack! Doctor prescribes blue pills or calomel. Next, come drastic aloetic pill or powders, to work off the effects of the blue pills this prostrates you, and a tonic is next given, to a gentle aperiant, whereas one dose of Radway's Pills will do all the work that the three or more prescriptions are given for, without running any risk from mecurialising or salivating the system.

Radway's Pills.

In Radway's Pills the true principle of purgation is secured—not alone to the office of dismissing the fæces and excrements from the bowels, but these rumors that are checked or stopped in their passage through the Skin, Kidneys, Lungs, and all excreting and secreting functions; for if these excrementatious secretions belonging to the skin, liver, lungs, kidneys, are interrupted in their escape, they become products of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgative qualities of Radway's Pills extend to the secretions of the Skin, Kidneys, Diver, &c.; whereas not one of the advertised Pills claim to act beyond the bowels.

How to take Radway's Pills.

Their daily use.

In doses of one or two pills, by all persons of a full habit of body, subject to giddiness, rush of blood to the head, palpitation of the heart, and all those subject to fits, will not only keep the blood from becoming congested or clogged up in the blood vessels, but will equalise its circulation, and prevent sudden attacks of apoplexy, disease of the heart, congestion. Persons who will take one of these Pills every day will not suffer from Head-aches, Dizziness, Hysterics, Fainting Spells, Pains around the Heart, and a hundred other disagreeable symptoms.

DYSPEPSIA.

One of Radway's Pills, two or three hours before dinner, taken daily, will keep the system free from Dyspepsia, Constipation, Costiveness, &c. &c.

Bear in Mind,

Radway's Pills are the only purgative that will secure an alterative, diuretic, sudorific, aperiant, and tonic influence.

They are the only vegetable substitut

WEDNESDAY, OCTOBER, 11, 1871.

PROSPEROUS WINDS.

Yesterday morning, as the good steamer Republica was getting up steam, with her Blue-Peter flying, the old wooden mole presented a lively appearance—crowds of English, American and Argentine tourists bound for Cordoba; brokers, merchants, editors and officials, with smiling faces and light hearts, all happy as schoolboys out for vacation; and here and there a few friends from Montevideo 'en route' for the same destination, to inaugurate the first International Exhibition in the Argentine Republic.

The morning was fine; and among the tourists we remarked Messrs. Mackern, Juan A. Fernandez, Richard Wilson (Montevideo), E. T. Mulhall, Hibbert, John Davidson, Mr. and Mrs Pearson, Mr. Clapp, U. S. Consul, W. Junor, O. Rossi, F. Stewart, Delfino, Guerra, Chenaut, Velez, Gallardo, Casenave, Devotto, Delgado, Villafañe, Vela, Rainoso, Dorr, Olivera, Mattaldi, Molina, Baena, Gordon, Villaniel, Velez, etc. etc. As the coming Inauguration does not take place till Sunday, 15th, they will have time to rest a couple of days at Rosario. Pres. Sarmiento and his Ministers go on today from Rosario to Cordoba, and notwithstanding all the rumours about demand for lodgings, we have reason to think that there will be ample accommodation. The arrangements of the Central Argentine Railway offer every convenience for the long overland route: besides the admirable restaurants at Bellville and Villa Maria, each train has a refreshment saloon attached.

Most of the travellers visit Cordoba for the first time, and strange and novel will be their sensations on viewing the city of the Jesuits, the old mediæval "sleepy hollow" of the Spaniards, with its delightful climate, grand sierras, classic 'alameda,' sandy streets and sunburnt inhabitants. We remember hearing of people who went up to Cordoba for a month's vacation and remained there for the rest of their lives, dreaming away the days, weeks, months and years in that kind of Lotus-eating existence. There is, however, little danger of the present band of pilgrims sharing the fate of the sailors of Ulysses and never wishing to return again to home and friends. They will, doubtless, make the best use of their time and explore the scenic beauties of Cosquin, Tanticuchi, Santa Catalina, Anisacati, Saldan. Calera, &c. In this manner, irrespective of the Exhibition, a fortnight may be passed delightfully, amid scenery that would have gladdened the heart of a Robin Hood or Salvator Rosa.

The Cordobese are proverbially polite to strangers, and on the present occasion the spirit of hospitality will certainly be enhanced by the knowledge that the visitors will spend their money freely and enliven for a period the dusty region of schools and philosophers. It is the first awakening the place will have had for centuries, and the Rip Van Winkles of the quaint old city will perhaps take it as an omen that a new era of English capital, French fashions, American reapers and corn-shellers, has succeeded to the mode of life that hitherto prevailed.

That the Exhibition itself will be highly interesting we have no doubt, the delay in its opening having afforded extra time for arranging everything in fit order. As regards the gardens, they are really beautiful, and will come like a charming surprise on strangers after the monotonous journey over the Pampas; the water works, etc., as well as the annexes of the Palace, are also displayed with the best regard to effect.

It is premature to say what will be the effects of the Exhibition on the people of the Upper Provinces, or how far, in an economic sense, the country will be a gainer by the expenditure of £50,000 sterling; but the example set by President Sarmiento before his countrymen his highly laudable, and calculated to produce fruit. If one who digs a well, or causes a blade of grass to spring up where none grew before, be a benefactor to humanity, we must at least accord the same meed of praise to all who take part in this first tournament of industry of which Cordoba is about to be the theatre. And here we are again reminded that but for the enterprise of such men as Brassey, Wythes, and Wheelwright, it would be impossible for Cordoba to be holding her present revelry; without the Central Argentine Railway we could have no Exhibition in Cordoba, unless we went as the townsmen of Dr. Velez used to travel in the olden time—in bullock-carts.

The Cordoba Exhibition has not attracted the gaze of the universe or drawn thousands of people from distant countries, but it is a sign of the advanced spirit which prevails in the Republic, and will cause the name of Buenos Ayres to be spoken of abroad with more honorable associations than are suggested by the wars of Blancos and Colorados, or the periodical revolutions of Central America.

We wish President Sarmiento, his Ministers, and the other visitors a happy sojourn in Cordoba, feeling certain that they will bring back pleasurable reminiscences of their 'paseo:' and the kindest recollections of the people of Cordoba.

LONDON LETTER.

London, Sept. 8, 1871.

Every month seems to bring its sensational case illustrating something awry in our social condition. In matrimonial cases the wife is usually murdered by the husband; in cases not matrimonial, the male party to the transaction is the victim. In cases such as the 'Farnham Tragedy,' or the 'Wholesale case of poisoning' at Brighton, which unites the evils of love, free or restricted, neither man, woman, nor child is safe. Miss Christiana Edmunds, of Brighton, conceived an extraordinary passion for a Dr. Beard, of the Grand Parade at Brighton. Her object was therefore to dispose in some way of Mrs. Beard; and it has come out in the evidence that twelve months ago she had purchased chocolate creams from a confectioner, and was in the habit of getting little boys in the street to purchase them; and, under pretext of changing the sweets, she returned them poisoned, in the hopes that they would fall into the hands of her proposed victim. It appears many children had eaten the sweets and had suffered; but through the neglect of the authorities the cases had not been thoroughly investigated. Her immediate object failing, our Brighton Borgia sent the poisoned sweetmeats direct to her victims. But in the course of her previous indirect efforts, out of the several persons who were poisoned, one child, four and a half years of age, named Sidney Albert Barker, died. For his death Miss Edmunds is charged with wilful murder, and the case is now pending. A curious feature in the evidence is that the woman had the impudence to write anonymous letters to the parents of the children who suffered, recommending them to have the cases investigated, and hinting at foul play.

To finish the list of accidents and offences of the week, I may mention that the actor Walter Montgomery has committed suicide. From the evidence of his afflicted wife at the inquest, the cause appears to have been over-work of the brain. Nobody now-a-days believes in over-work; but the conventional verdict of 'temporary insanity' was returned, and poor Montgomery received Christian burial.

Nat Langham, the pugilist, is dead. He was noted among the 'fancy' as the only man who thrashed Tom Sayers. Langham's death will, perhaps, be the last item in the chronicle of the Ring, an institution of our fathers, which, like all others, contained its modicum of good; and as moderate men and conservatives, we may say of it, as we would say of Army Purchase, a State Church, or a House of Peers,—"It works well."

Renforth's body has arrived in England. His stomach was examined by experts, and no traces of poison were discovered. Renforth represented an innocent form of athletism well worth preserving as an antidote to the Ring as it exists in New York, and which, without doubt, is the foulest blot now visible on the face of Republicanism and Humanity. In the hideous triumvirate now ruling in the New York Municipality, the Rose, and the Shamrock and the Thistle are beautifully symbolized in the names of Messrs. Oakey Hall, Connolly and Tweed, who by the aid of the Irish vote and the corruption of American judges, have swindled their fellow citizens of millions sterling. Democracy in the U. States is only another name for Individualism, and is rapidly disclosing the worst features of that system. In no country in the world, says Mr. Wells, of the American Free Trade League, are the the laws so well contrived as in the United States, to make the rich richer, and the poor poorer.

This was an old saying of our reformers, and they added the dictum, the truth of which is daily being exemplified, that political forms, that is forms of government, monarchical or republican, are only means to an end of little avail unless hand in hand with social reforms, simplicity of manners, freedom of trade, and a fair distribution of wealth. It is curious and instructive to see at this very moment the same questions discussed in Republican America, Monarchical England, and Imperial Germany. The German economists are meeting in congress to rid their country of sundry old trammels on commerce the Americans have newly imposed upon themselves; and very soon we may hear of the aristocrats of Tammany Hall joining in the conclave, with Bismarck and Von Beust, and consulting, as the two latter statesmen are now doing, on the best means of resisting the pretensions of the International Association. Leave them alone say the liberal and practical English politicians and great employers of labour. 'Lais sez nous faire. If our workmen, says Sir W. Armstrong, will not take our terms, we will get others that will; and Newcastle is at this moment filled with foreigners and strangers from Norway, Switzerland, and the south of England, to fill up the places of the engineers on strike. Quite right; the Berlin masters will do the same. But this is only a temporary triumph for the masters, and is only such a triumph as Prince Bismarck may achieve by turning the artillery of his junker slaves on the artizans of the German cities. Cooperation is the only remedy; cooperation already exists both in England and Germany in spite of the state, but receives no encouragement. Likely enough; because great princes such as Bismarck, great mechanics like Armstrong, and great thieves like Connolly, know that it is the engine destined to reduce their highnesses to the general level.

To the great dismay of vulgar optimism in England, Lord Derby announced in his speech at the meeting at Liverpool of the Manchester and Liverpool Agricultural Society, that the 'land question' was coming to the front. But speaking no longer as Edward Stanley, the Radical, but as a Conservative peer, he tried to cushion the coming blow by reproducing inaccurate statements, and the commonest objections to the principles of the agitation which in less than five years will revolutionise our land system. On the other hand, Mr. Gladstone, in two or three Democratic speeches he has already made on his way from London to his retreat in Wales, through Whitby, Leeds, and Wakefield, has still more alarmed the London club politicians; their organs, the *Times* and the *Post*, are furious against him, and will very likely from this time work together to turn out the Ministry. Mr. Gladstone's offence was in telling the working men of Whitby and Wakefield that the London press represented wealth, and on that account it opposed his measures in regard to the abolition of purchase in the army and the ballot. "But," says Mr. Gladstone, "the Lords threw out the ballot bill on the plea of want of time to discuss it. They shall not have that excuse," cries Mr. Gladstone, "next session. The ballot bill shall knock early and very loudly at the doors of the House of Peers."

It is certainly a serious, very serious question to ask one's self, what does the ballot mean? One thing I am of opinion it means, if applied to Ireland; it means home rule and an Irish Parliament, returned by the priests for the first two or three years and by the Lord knows who afterwards. But that is the Irishman's business, not ours.

You will have seen in your Lisbon telegrams that of the Communist prisoners already tried by court martial Lullier and Ferré were condemned to death. Of the five poor wretches of women just tried by the fourth court martial, three of them have been sentenced to death on evidence which according to an English barrister "would not have hanged a dog." The barrister's opinion appears in the Paris correspondence of the *Telegraph*, which paper has always been foremost in the pack of yelpers after the Communist quarry. The poor women, who were the mistresses of the lowest of the National Guards or vivandieres in Communal regiments, were hissed by the respectables as 'petroleuses' and incendiaries. There was not a tittle of evidence to prove that even these poor low, ignorant and perhaps abandoned wretches committed the crimes imputed to them. Such sentences throw an air of the grim and the grotesque over the whole proceedings, and the Parisians who are always alive to the ridiculous may yet stay the hand of the executioner. There is no doubt that Ferré was a blood-thirsty scoundrel; one of those vain, cruel, excitable Frenchmen who would ruin any cause; but the little downright criminality yet evidenced in the trials, apart from political lunacy makes me repeat the opinion that the communist trials will collapse; and you will observe now in the English papers that a similar opinion prevails.

The political relations between Italy and France are unsatisfactory. The antiquated politics of the President of the French republic, and the meanness of the people who would like to regain their lost laurels against a weaker enemy than United Germany are the sole causes of the difficulty. The Italian Government has given no offence. The ostensible cause relates to the secularization in Rome of French convents. The meeting which has just taken place between the Emperors of Germany and Austria at Salzburg will no doubt include as one of its results a common policy in regard to Italy should it be attacked. But such madness on the part of France cannot yet be thought of. She has only paid 53 millions sterling of her lost war indemnity; and it will be lucky if she gets rid of her German guests this side of Xmas.

Some time ago you heard that the reason Jules Favre resigned was the libels against him published in a Paris paper. That appears to be the true reason. For M. Favre admits the truth of the impeachment made, that he registered his own illegitimate children in another man's name; the man being the husband of the lady with whom M. Favre cohabited. M. Favre nominally gained his case in prosecuting the journal, but without damages.

The weather is cooler and the nights are growing long. London is again beginning to fill; and one meets many a bronzed-faced friend who says before you question him, "Oh! enjoyed myself immensely. Awfully glad to get back."

ROSARIO.

(*From our own Correspondent.*)

October 10th.

A trip to the ancient town of Santa Fé prevented me from writing you last week. However, there are no items of intelligence of any peculiar interest in the Province. Crime is on the decrease in the Department of Rosario, owing to the energy of the Gefe Politico; but there is no system of permanent moralization going on. A criminal is taken up, punished, let off, is taken up again, and again punished, and so on 'ad infinitum.' Society is not benefited.

A most barbarous murder was committed lately in this Department by two men. The victims were an old woman and three children. It was a cruel and wanton massacre; there was no object, no motive. It was one of the cases which prove that a large number of our Gauchos are by nature butchers, and shed human blood with the same indifference as they would kill a stolen calf. They are very little better than the Thugs, whom the Indian Government has, after many years of labor, succeeded in extirpating. For this class of criminals, extermination is the only remedy. This is evident; for the man who thinks it no crime to take the life of a fellow being ought to be treated like a mad dog, and put out of the way without delay, in order to save the valuable lives of innocent and worthy people.

The murder I speak of has had the effect of making one of our daily papers urgent for the law to be allowed to take its course (the two men have been condemned in First Instance.) The other paper sticks to the maudlin sentimentalism that has had the effect of fostering crime in this country to such an extent.

"How is it possible," it asks, "in this enlightened age to insist on taking away life—butchering our fellow creatures, in fact, in retaliation for the crimes they commit?"

As for butchering, the last war saw it on a pretty large scale, and our sentimentalists, who snivel over the execution of a brutal assassin, had not a word of commiseration or pity for the hecatombs of poor victims whose lives were sacrificed with all the attendant horrors that battle-fields, retreats, and hospitals present.

There is a singular inconsistency in this people. Here we never see any horror evinced at crime or bloodshed. Our whole society is allied to the religious sect of Thugism. The greatest part, of course, would not commit a crime, but it is extraordinary the apathy with which crime is viewed—the perfect indifference, in fact, of society as to whether virtue or vice predominate. A rogue, a prostitute, or an homicide you might possibly meet in any country, but here they are to be met with on the most perfect terms of equality with virtue.

Again, the contempt with which in all classes law and order are held is shown not only by the indifference and apathy of the people in reference to crime, but by the readiness of the authorities themselves to break the laws. How often do we witness the criminality of the vigilantes; how many cases of commissaries more culpable than the prisoners they send to jail!

It is only a short time ago that the Justice of Peace at San Lorenzo put a poor Italian to torture, in order to recover a small debt. The man nearly died. Now it appears that the murderers Barrera and Acosta were most horribly tortured in the Policia, in order to extort a confession. They suffered the 'cepo Columbiano,' which is neither more nor less than the rack of ancient times simplified.

How is it possible for the people to have respect for the laws, when the authorities themselves are continually breaking them?

Talking of breaking the laws, the public is at this moment very much alarmed at a report that has found its way into the press, that the employees in the National telegraph offices are used as spies by the National Government. It appears that there is really some very suspicious evidence against the Government. This, if true, is a serious matter. People get accustomed to being fleeced and maltreated by the authorities; but they won't stand having their letters opened, and a telegram is just as sacred as a letter. And there is something so repugnant, even to the lowest standard of honour, in the idea of spies and informers. A member of Government who could be convicted of such ignoble rascality should be tied up in the same bag with the delinquent official, and hung up in the public plaza.

I hope that this report is only one of the 'bolas' so freely used in these countries in partizan warfare.

There is great dissatisfaction in this province in reference to the exorbitant taxation the people have to groan under. The 'patentes' are absurdly high, and have already obliged many small houses to close. In the department of Rosario, the milch cow of the Government, we have to pay at least twelve patacons per inhabitant per annum for taxes.

What is done with the large income the Government squeezes out of us, it is quite impossible to say; but I have been furnished with some data which does not place the last two administrations in a very favorable light.

Five years ago, during the administration of Mr. Oroño, the Income of the province was only about eighty thousand pats. The employees were then regularly paid, the camp secure, and life and property were protected. Colonization rapidly progressed, settlers transported gratis from Buenos Ayres, and nobody grumbled except disappointed politicians. It is true Oroño left the Province in debt for an insignificant amount, but it was on account of the government house be built at Rosario, and other improvements.

Since Mr. Oroño's time the revenue has increased to three hundred and fifty thousand patacons. Not a public edifice has been built, not even a school; not a farthing has been expended on colonization; no more schoolmasters employed; the employees most irregularly paid, and life and property has been for the last four years more insecure than at any time in the history of the Province. The population of the Province has not increased except by influx of foreigners. The expenses of the Administration should not have increased more than ten per-cent. per annum, and yet we see that within four years the receipts of the Government have increased from eighty thousand to three hundred and fifty thousand hard dollars, and the Government always as poor as a church mouse!

The Governor has lately made a trip to the frontier of San Javier, and as far as the Alexandra colony. He will be in Rosario to-morrow to meet the President and accompany him to Cordoba.

There is a curious circumstance accompanying the mortality tables of Rosario and Cordoba. The two towns contain about the same number of inhabitants. The general mortality appears to be in favor of Rosario, but the outskirts of Cordoba are more densely populated, and taking the radii of the burying grounds, Cordoba may have a population of 5,000 more than this city. The circumstance I have alluded to is the fact of the greater mortality amongst infants in Rosario than in Cordoba. Out of 110 deaths in one month in the latter place there were only 33 infants; and the number of people who died at an age over 70 was 23. In Rosario in the same time there were 90 deaths, and out of this number upwards of 60 were children. In Santiago de Chile it is calculated that three-fourths of the children die before they reach the age of three years. The births in Rosario amount to from 115 to 120 monthly. The cause of the great mortality amongst infants in Chile is generally placed to the account of the corruption of the lower orders. In this country to the want of proper domestic service.

EDITOR'S TABLE.

The latest news from the seat of war in the Banda Oriental announce that Aparicio requested General Borges to meet him in conference on Saturday last, but that the latter refused, and was determined to force on a battle. The Government General has 2000 men splendidly mounted, and feels confident of victory. Muñoz had not joined his chief, as was supposed, and the rebel forces only equal the Nationals in number, and are inferior in equipment and horses.

Passengers by the Oneida, in which steamer the ex-Empress of the French travelled from Southampton to Lisbon, describe her Majesty as still extremely beautiful, and showing little or no signs of advancing years, or the effects of her recent trials. Her Majesty was on every occasion most affable to her fellow-passengers, and always breakfasted and dined with them in the saloon. On arriving at Lisbon the King of Portugal sent his barge to convey the Empress on shore, but her Majesty declined to use it, and was conveyed to land in the Oneida's boat, under the command of the second officer, the King's barge following. The ex-Empress travelled 'incognito,' under the name of the Countess de Pierrefonds.

We understand that a special train and a residence in Cordoba have been offered by the Resident Director of the Central Argentine Railway, in the name of the Company, to General Mitre and his family, should they think proper to visit the Exhibition, but he has declined, on account of his intention to proceed to Rio Janeyro on family affairs.

The mole was crowded yesterday morning about 10 o'clock with Cordoba Exhibition tourists, all going up to Rosario in the splendid Republica, which lay some way out in the roads. Most of the excursionists appeared to be travelling 'en garcon,' and there was an unpleasant looking scarcity of 'sweethearts and wives' amongst them. Nevertheless, they all appeared exceedingly jolly, and it was with a slight feeling of envy we shouted 'bon voyage'! as they pushed off from the mole head.

The Paysandu papers request the immediate attention of capitalists and speculators to their interesting little town which, it appears, is very badly in want of a tramway, to run from the Plaza to the river side, a distance of 25 squares, as the crow flies. Sir Narrow Gauge Robinson, or other celebrated tramway engineer, will supply the want in a month, for adequate consideration.

The election of Vice-President of the Republic of Paraguay gave occasion for serious riots in Asuncion last week, and they were put down with some difficulty. The number of killed and wounded is stated to be fully 100, but it is hoped that this is an exaggeration.

The passing of the Slave Emancipation Bill in Brazil seems to have aroused forcibly the liberal sentiments of the people. Now that the LAW decrees the abolition of slavery, there appear to be a spirit of emulation amongst Brazilians to anticipate its operation, and the voluntary emancipation of slaves is the order of the day. Foremost in this noble reform we find the monks of the Benedictine Order, who have recently set free over 600 slaves, and their example is likely to be followed by all corporate bodies in the Empire.

We remind our fair readers that the great Skating Tournament so anxiously looked forward to, comes off this evening at the Coliseum. Dame Rumour has been propagating all kinds of reports as to the cavaliers who are likely to win. Given the winner, it should be easy to make a tolerable guess at the Queen. The excitement in fashionable circles is intense. There is a general wish expressed in unmarried feminine circles that Benedicts and widowers of uncertain age should be excluded from competing for the inestimable privilege of pointing out the prettiest girl in the room.

Rossi appears to-night in Kean, a drama by Alexander Dumas, and in a scene from the second act of Hamlet. The public should bear in mind that Sr. Rossi will not repeat any of his performances, as his repertoire is very extensive, so those who have pet plays must look out for them, and 'take the ball on the hop.'

The recent gold discoveries at Portezuelo, in San Juan, are exciting interest. Several adventurous spirits have already set out for the finds, amongst them Mr. Fielding, C.E., and Messrs. Day and Andres, both competent authorities on mining matters. These three gentlemen go for an official inspection of the mines.

The launching of the Herrera-Eastman loan continues to affect the Bourse at Montevideo. The premium on gold has fallen to 93¾, and sanguine optimists predict that it must fall to 5 before a month expires. Others opine that Mr. Batlle's Government will be battling with impecuniosity again before X-mass Day, or certainly before any Easter eggs are laid.

The small-pox has broken out in San Luis, and has already carried off many victims.

The heat in Cordoba last week was terrific—thermometer 101 in the shade; since the rain, however, it is reported less. In any case the excursionists who left yesterday are certain to have hot work of it, as the average number of 'tertulias' awaiting their 'assistance' is said to be, at the lowest computation, three per night.

Latest accounts from Ireland announce the return without opposition of Mr. Isaac Butt, Q.C., as member for Limerick, the Honorable Colonel Vereker and Mr. Spaight having withdrawn their candidature.

Their Imperial Majesties the Emperor and Empress of Brazil continue to be received everywhere in Europe with the same demonstrations of respect and welcome as they met with in England. Respecting their reception in Prussia, a correspondent says:—"Their Imperial Majesties of Brazil arrived at Potsdam on August 25, and were received by his Imperial Highness the Crown Prince, who, though he had only on the same morning returned from England with the Crown Princess and family, hastened to the railway station to welcome the illustrious visitors. His Imperial Highness conducted the Emperor and Empress to the New Palace of Sans Souci, and, after they had partaken of a collation, accompanied them on a visit to the principal objects of interest in Potsdam. After driving through the fine park to Babelsberg, and thence to the Castle of Glienicke, where they were received by Princess Charles of Prussia, the distinguished guests returned by way of the Marble Palace to the City Castle, in which they examined with deep interest the chamber of Frederick the Great. His Imperial Highness the Crown Prince proceeded to give his guests some historical explanations, but could hardly suppress his surprise at the intimate acquaintance of Dom Pedro II. with the history of Prussia."

Nothing is talked of at home but the Aldershot campaign. The Control officers feel confident that they could take the 40,000 men, for whom they are called upon to provide, to Inverness and back if required, granted, of course, that the sum of money necessary for expenses was forthcoming. It is said the manœuvres are more likely to cost £300,000 than the £30,000 voted.

Several officers belonging to the U.S. squadron in these waters are expected in town this week 'en route' for the Exhibition at Cordoba. 'Tars' are always an acquisition wherever fun is going on, and the gallant Americans may count on keeping many an agreeable morning's watch at ball and 'tertulia' during their stay in the devout, dusty and doctoral city.

Another criminal has been condemned to death in Montevideo, and will be shot next week. The unhappy wretch foully murdered a young girl with whom he lived.

Intelligence reached town yesterday confirming the report that yellow fever had broken out near the city of Corrientes. Only a few isolated cases have occurred, but the port authorities here must keep a vigilant watch lest we import the fell destroyer a second time.

We are given to understand by competent authority that the negotiations for peace now going on between the Blancos and Colorados are very likely to prove successful. In this city the most influential men on both sides have held repeated conferences, and there is more chance of an arrangement than is generally supposed. It would be an immense boon for poor Banda Oriental if the strife that is hurrying her to perdition could be put a stop to.

Shearing has begun in Entre Rios, and on some large estancias it is already half over. We are promised a sample of the first wool cut, some of which is expected down next week.

On Monday 13 people died of small pox, the highest number in one day since the disease appeared in the city. We reiterate our counsel as to revaccination. Many people who professed to disbelieve in its efficacy a couple of months ago are now marked for life with traces of the disease, while not a single case of any revaccinated person being attacked is known.

The *Prensa* mentions the sale of nine manzanas of land on the Boca Road for the round sum of 24,000 ounces.

The wires of the National Telegraph have now reached Mendoza, and in a short time the whole plant authorised to be laid by Congress will be completed.

The Province of San Luis is reported in a miserable state. Indians and 'Gauchos malos' roam over it from end to end robbing and plundering, yet the garrisons can do nothing, being badly mounted and equipped.

The manager of the Central Argentine Railway has sent a number of free tickets to and from Cordoba to all the other railway companies, to be distributed amongst the employés.

On Monday a frightful affair took place in the Constitucion market. A peon asked another for a 'cigarillo;' the request was refused, and the next instant a stab to the heart's core revenged the supposed insult. The assassin, who is a man over 50 years of age, was instantly captured, but took the whole affair with cold-blooded nonchalance. The victim did not live an instant, his heart being cloven through.

A cheese making establishment on a large scale has been opened at Moron by Messrs. Bartoli and Diaz, an enterprising young firm. They use an enormous quantity of milk, and their cheese, which is made on a new system, is said to be very good, and has already appeared in this market.

A number of books have lately been stolen by parties visiting the Public Library; and the Librarian has published a notice to all dealers and book-binders to keep a sharp look out in case the volumes should be brought to them for sale, or for the purpose of being disguised in a new binding. All books from the Library are stamped.

We take from our London contemporary the *Globe* the following details of a conversation which is said to have recently taken place between a well-known Russian nobleman and the writer respecting the future of the great Empires of the world. The Russian considered that Napoleon was the greatest politician in Europe, that the Crimean war was managed very badly on the part of the English, and that England would not occupy her present position many years. Russia, he thought, would in all probability take her place, our empire of the seas would also pass away, and Ireland would become a separate kingdom or republic. The conversation then finished as follows:—"Do you suppose that Russia will last for ever, then?" "No; but she will last till the five great empires of Europe, Asia, Africa, America, and Australia arise." "Australia!" Yes, Australia will probably prove the strongest of all. She will be the richest, and her resources are boundless." "What hinders these great changes you talk of from taking place at once?" "The want of population in countries like ours, the over-population in lands such as yours." There is much in this last sentence which the Governments of the world would do well to ponder."

Did any of our readers at Pretenders Derby, in '69, hear that otherwise magnificent animal, Belladrum, roar like a bull as the field breasted the hill at the bushes? Mr. Merry offered him to a friend of ours to bring out to the Plate, but fearing his infirmity would prejudice him with breeders he was declined. The horse was afterwards sold for 300 guineas, and a 1,000 was bid for him previous to his shipment for the Cape, where, it is said, the clear and buoyant atmosphere in a short time almost cures this widely-spread scourge of our thoroughbreds. It would be interesting to learn whether the bracing and elastic climate of the Plate has the same effect. Will any devoted STANDARD subscribers, in the interests of science, bring out a really bad roarer, so that the truth of the above statement may be tested to our satisfaction?

The sale of the thoroughbred two-year olds imported from France took place on Monday at the Lacroze Tramway station. They consisted of one colt and four fillies, from the stud of Baron Schickler. Mr. Verdier bought Bohemian, the first named, at $18,500, and Mr. Downes took for Don Anacharsis Lanuz, Clemence, a big, roomy chestnut, whose lop ears (much disliked in this country) militated against her, at the low price of $9,500, a sum which would not cover freight and expenses. After this the sale was suspended, but one of the three bay fillies that remained was, we hear, disposed of privately for $10,000. The result was anything but gratifying to the unfortunate importer.

REPUBLIC OF PARAGUAY.

FROM THE "TIMES."

A report prepared by Colonel Morgenstern, in pursuance of instructions from the President, and dated Asuncion, the 15th of May, gives an account of the resources on which the Government may reckon, by sale of public lands or otherwise, for its solvency in case of contracting any debts in the immediate future. Colonel Morgenstern states that Paraguay, according to the boundaries imposed by the Secret Treaty of Alliance between Brazil, the Argentine Confederation, and the Western State, of May 1, 1865, extends between 22 degs. to 27·25 degs. south latitude, and 57 to 60·30 degs. west longitude of the Paris meridian, and contains 16,590 square leagues; 16,329 leagues are described as public property. The climate is described as temperate and healthy, and the territory favourable to agriculture, pasturage, and industry. The fields have an abundant and permanent supply of water. The highland mountains are of great fertility, the vegetable soil varying from two to four feet in depth. Two principal rivers, navigable at all seasons by large ships—the Paraguay on the west and the Paraná on the east and south—now forming the frontiers, make the Republic a peninsula, and transport its productions brought by interior streams to the markets of the world.

It is stated that every class of minerals abounds. Yerba mate, or Paraguayan tea, grows on the elevated and undulating ground. Maize yields 600 for one; rice, 1,200; barley, 60; wheat, 45; potatoes, 40; one ridge of tobacco, 100 yards in length, yields 36lb. of first quality tobacco; of sugar cane, 100 rows yield 380 azumbres of 37lb. each, or 13,680 lb. of molasses, which, even by a primitive process, yield 5,000 lb. of common sugar. The annual export of oranges, in an average year, is 500,000 of almudes, or 25,000,000 oranges from a radius of only seven leagues from the capital down the Paraguay. The cotton is much valued for its fineness, whiteness and texture; the product is stated at 8lb. of clean cotton per ridge of 100 yards. Colonel Morgenstern states that these data are obtained in his own establishments in the districts of Bobi and San Antonio de la Asuncion. He says that the ground round Asuncion, the capital, has been sown annually without any kind of manure for 300 years. The value of the lands constituting the territory of the Republic is estimated thus—

The fields, 7200 square leagues, at $4000 the sq. league, $28,800,000; the mountains, intact and covered with valuable timber, yielding over 20,000 yards of beams per square league, and the soil most fertile for agriculture, 8550 square leagues at 20,000 patacons the square league, $16,800,000; one sq. league of Paraguayan tea plantation yields every three years 40,000 arrobes of tea, which leave a hard dollar per arroba profit, or 13,000 hard dollars per annum. The total of these figures is $96,900,000—say £19,380,000. To this must be added the value of the public buildings, the railways and arsenals, bringing the national property up to a value of £20,000,000, a tangible and virgin property, since Paraguay, notwithstanding its temporary deficit, has no public debt.

The report of the Ministry of Finance proposes the disposal of the land to immigrants at very moderate prices, and the sale of all the property of the State; one-fourth of the proceeds to be devoted to the amortisation of the obligations of the State, one-fourth to the promotion of immigration and the foundation of agricultural colonies, and the remaining half, after settling all claims against the Government, to protecting internal industry, fostering public industry, and creating a mart.

ABOUT 'OTHELLO.'

Montevideo, Oct. 9th.

Gentlemen:

A series of letters has lately appeared in your respected paper by a writer signing himself 'Othello,' who with much pompous parade emits his opinions on persons and things in general, and has on sundry occasions vented his spleen in ungenerous insinuations against respected members of our English community. This writer has continued his occupation for some time now by the help of his mask; it is an excellent protection, and has saved many a man before now from most unpleasant consequences. But whenever he will be daring enough to lay it aside, avow himself, and produce the face which has so long lurked behind it, we shall all be able to appreciate his motives for writing such insufferable trash. His real name will discover his position in society and his occupation; so that if, as we presume, he is some miserable being with so little to do on his own account that he possesses sufficient leisure to devote a great deal too much attention to the affairs of other people, we may be able to afford him a mode of earning a livelihood more creditable to himself and more beneficial to the society of Montevideo.

IAGO.

ON 'CHANGE.

October 10, 1871.

Ounces	400
Sovereigns	122½
Patacons	25
National Bonds	70½

National Bonds gave way with a tendency to decline further. Few buyers, and speculators are afraid that the impending emission of one million bonds just sanctioned may influence the market sooner than is generally expected. It is said that the National Bonds recently sent to London are about to be returned; some letters state that part of the amount have been negotiated at 75 per cent. less three per cent brokerage—other charges will reduce the price obtained to 71½.

Municipal Bonds are inquired for; the payment of the coupon by the Provincial Public Credit Department has sensibly increased their marketable value.

Exchange on London was offered and done at 51½ to 51¾ in the earlier part of the day; later on the refusal of several exporters to continue drawing caused a slight decline to 51 pence, at which a fair business was done. The impression that the rate will be lower at the end of the year is losing ground, for although specie can be imported to give an exchange of 51⅛, yet practically the rate of exchange will at the moment depend on the price of produce. If an exporter can buy tallow or wool, though he may draw at 52 or 53 pence, so long as he is within the limit of his order, it makes but little difference to him.

At present both exporters and importers have borrowed money, the one to avoid drawing, the other to anticipate remittances. This does not in any way relieve the market, it only postpones the inevitable rise consequent on the immense increase in the value of our exports compared to our imports. There is now not the same desire on the part of manufacturers to ship out goods to the scene of the late epidemic, yet there is a perceptably increased desire in Europe and United States to buy our produce.

It is rumoured that one of our private banks has authority to draw for £50,000 on London for account of the Argentine Tramway Co. recently launched.

The gold per Oneida was landed to-day and deposited at the Provincial Bank.

Discounts are easy, few good trade bills offering; it is not improbable that the rate be soon lowered. The Provincial Bank holds 17 million patacons in specie, an amount quite unprecedented.

A few shares in Transandine Telegraph Company changed hands at 5 per cent. discount.

Exchange on Montevideo passed at par and ¼ prem.

The English papers publish a notice of the Court of Chancery respecting the sale of vast mining properties in Chile, the estate of the late Mr. Sampson Waters, who seems to have accumulated an enormous fortune in that country. It is not often that the English law-courts exercise jurisdiction in this manner in South America. The property, which is to be sold at London, on January 9th 1872, comprises the following:—

1. The entirety of the San Pedro Mine.
2. Two-thirds of the celebrated Descubridora Mine, with the adjoining setts of San Juan, Conchas, and San Francisco.
3. Three-fourth parts of the Colorado (Silver) Mine.
4. Nine forty-eighth parts of the Juana (Silver) Mine.
5. The entirety of the Santa Elena Copper Mine.
6. The entirety of the Cuba Copper Mine.
7. The entirety of the San Antonio Mine.

San Pedro Mine, situate about 60 miles from the port of Chanaral, has given immense riches. The lode is composed of black and yellow sulphurets of a produce of 50 per cent. for copper. It is now down to the 94th fathom level, and has been rich from the surface. Within the last few months two new steam engines have been erected, at a cost of £6,000, and are now at work. The adjoining setts of San Juan, Conchas, and San Francisco were acquired for the purposes of securing the ground in all directions round the Descubridora mine, and they have since been worked on a limited scale. The Conchas and other mines are promising concerns. Remunerative shops and stores are attached to the mines, and are carried on in conjunction with them. The other property, which will be offered for sale, consists of the entirety of freehold dwelling-houses, stores, shops, watering place, timber materials, ore floors, and other property (including a large condensing apparatus), situated at Chanaral, Chanarcito, Copiapo, and Tres Puntas; the Quinchigui establishment or watering-place, with the dwelling-house, store-yard, carts and mules two-thirds of the Vega establishment, with the yards, houses, shops, and stores; two-thirds of the dwelling-houses and yards, store rooms, ore floor, the mole, and premises in the port of Pan de Azucar; seven-eighths of the watering place at Tres Puntas; and one moiety of the watering place at Punta Negra.

The wonderful success of the new Spanish Loan in England is favorably noted in financial circles. Some of the names connected with it are already known in reference to the Argentine Public Works loan. The amount required was 20 millions sterling, of which Messrs. Cohen and Olabarria took 1 million £, the Marquis of Vallejo a similar sum, Don Francisco Rivas £200,000, Don Simon Rivas £150,000, and Mr. Caen £150,000. In Portugal the subscriptions reached 1½ millions sterling, in Madrid 7 millions and the provinces 1 million, besides over 100 millions in London and Paris. The *Daily News* says—"The introduction of the new Spanish Loan has proved a great success, the total applications here and abroad for the £20,000,000 stock offered having reached no less than £110,000,000. Owing to this enormous subscription, and the circumstance that the apportionment will be made in Madrid, the allotment letters are not expected to be issued until the expiration of a fortnight. The scrip was again in demand, and experienced a fresh rise of ½ per cent., closing at 1 15 16 to 2 1-16 prem.

The *Scotsman* of Aug. 19th has the following—"A remarkable instance is exhibited of the success of railways in the new countries of the world whose Governments are good, and where the management of the railways is also good. The Great Southern Railway of Buenos Ayres, with a capital of £750,000, last year earned a dividend of 9 per cent. per annum on the original capital During the first part of this year, in consequence of the stoppage of trade and prostration of everything from the fearful effects of the epidemic, the returns fell off greatly. By the mail just arrived it is most remarkable and hardly credible, but it is a fact, that so great is the prosperity of B. Ayres and the elasticity of its trade and everything belonging to it, that after so severe a visitation, and prostration from an epidemic which never occurred there before, and it is believed will never occur again, the falling off at the beginning of the year is not only now made up, but an actual increase is shown. The returns from the 1st Jan. to the 9th July, 1870, were £76,896 4s 1d; in 1871 they were £77,838 16s 3d, being an increase for 1871 of £912 12s 2d, with every prospect of a continued increase.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Maná & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes alorady mentioned, Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. p. S) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds Twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.

Hennessy's Brandy.

The undersigned beg to advise the arrival of further supplies of this celebrated Cognac, consisting of the classes—One Star, Three Stars, and V.O. (very old). The excellent quality of this Brandy is uniformly and regularly maintained, and it can therefore be recommended with the fullest confidence to the consumer. The brand commands the largest sale at the highest prices in the principal markets of the world.

The subjoined statement of the shipments from Charente to the United Kingdom for the year ending 31st December, 1870, will, we trust, be a proof of its superiority to all other marks.

No. of Policies,..2,896 | Securities,$f1.315:157:02

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

The objects of the Company are mutual.

Each Shareholder of the two or ten patacon notes has a share in the drawings which take place in June and December, semi-annually. The holder of one hundred patacons in notes is entitled to a Bond with quarterly interest coupons, the interest on said Bonds being 10 per cent. per annum.

All funds received on sale of Tickets, Bonds, &c. are invested in mortgages on real estate and chattels, and the vouchers of same lodged in the Provincial Treasury under the special charge of the Government delegate, appointed to inspect the affairs of the Company.

The Popular Argentina gives the following securities:—

1st. Administrative and guarantee capital $f500,000, besides a reserve fund to be formed of $f50,000, afterwards to be increased to $f100,000.

2nd, Invertion of all the capital in documents secured by mortgages on property or loans on stock.

3rd. Deposition of these documents in the office of the Treasury of Buenos Ayres.

4th. Intervention in and fiscalization of all the operations of the Company, effected by a Board of Directors chosen yearly by the subscribers themselves.

Every half year reports are published of the state of the Company's affairs.

Circulars and pamphlets, with the fullest particulars respecting this company can be had on application at the Banking Offices, 213½ Calle Piedad, Buenos Ayres. 120 xp f11

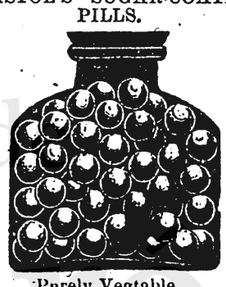
HEALTH AND HAPPINESS,
BY THE USE OF
BRISTOL'S SUGAR COATED VEGETABLE PILLS.

These Pills have justly acquired a widely extended reputation for their wonderful cures of severe cases of sickness—cases in which all other Medicines had failed, and which had been given up by Physicians as beyond help—such as confirmed and long-standing Liver Complaints, obstinate cases of Piles, Dropsy, &c. But while admitting their wonderful curative powers in difficult cases, we wish to call attention to their great value in the every-day diseases of life, such as Costiveness, for which they are a perfect specific; Headache relieved and cured by one dose; Indigestion always removed by them, and the stomach so toned and strengthened as to prevent a return. Bad Breath cannot exist when the stomach is cleansed by

BRISTOL'S SUGAR-COATED PILLS.



Purely Vegtable.

For Loss of Appetite they are the only sure remedy, as they never fail in carrying off the depraved bilious secretions that float in the stomach and destroy the healthy, natural craving for food. Sour Stomach, Heartburn, Flatulency, and all Derangements of the Digestive and excretory Organs, are promptly relieved and cured by them. The public should always bear in mind that Bristol's are the only Pills made of

Podophyllin and Leptandrin,

The only vegetable substances yet discovered that are really

Antibilious,

To the presence of which invaluable resinolds the extraordinary success of Bristol's Pills may in a great measure be ascribed. It is necessary, however, that the sick should always remember that in all diseases that have their origin in the blood,

BRISTOL'S SARSAPARILLA,

That best of blood purifiers, should be used with the Pills, the two Medicines being prepared expressly to act in harmony together. When this is done faithfully, we have no hesitation in saying that great relief, and, in most cases, a cure, can be guaranteed when the patient is not already beyond human help.

For general directions and table of doses, see the wrapper around each phial of *Pills; but as* different constitutions requirre different doses to produce the same effect, it is better that each person ascertain, by trial, the dose that suits their system, and take that dose, instead of following any general rule.

De una Estancia á 13 leguas de la ciudad, á 3 del pueblo de San Vicente y de la Estacion del Ferro-Carril del Sud. Terreno de 4,800 varas de frente por 5,000 de fondo—lindisimo campo mensurado y amojonado con mojones de fierro. Una gran quinta con muchas maderas y buenas frutas. Potreros para encerrar 12,000 ovejas, seguros y reguardados por la quinta. Corrales, chiqueros, poblaciones, galpones y puestos. Jagüeles calsados y abundantes, y un hermoso tablon de alfalfa bien cercado. Como mil ovejas de muy buena calidad. Caballos de tiro y silla. Utiles del establecimiento y muebles.

El Domingo 15 de Octubre a las 12 del dia, en el Pueblo de San Vicente, en casa del rematador (Plaza Principal) donde estará la bandera, se dará principio al remate de la Estancia mencionada arriba, perteneciente a D^n. Enriqueta Willems de Quado, conocida por 'Estancia Vieja de Peralta,' en un solo lote el campo, poblaciones, quinta potreros y corrales. Y al dia siguiente, 16 de Octubre, á la misma hora, se rematarán en el mismo establecimiento donde estará la bandera, una majada de ovejas como de mil cabezas, chico y grande. Caballos de tiro y silla, utiles de campo y muebles.

La venta de todo lo relacionado se hará infaliblemente en los dias indicados, al mas alto precio y al contado; pues la dueña se haya enferma y desea pronto retirarse á la ciudad con su familia. Nada de charla—se venderá precisamente, y se procederá á todo con la mayor formalidad y buena fé.

Los interesados tienen tiempo suficiente para ver el establecimiento á su gusto, y prepararse á la compra. Los que vengan de la ciudad encontraran todos los dias quien los conduzca en la Estacion San Vicente, dirigiendose al dueño de las diligencias, D. Luis Marconi—y saliendo en el primer tren de la ciudad el dia del remate hallaran tambien en la misma estacion coches suficientes (bandera punzó) que los conduciran gratis al Pueblo de San Vicente, donde tendran preparado un escelente y abundante almuerzo, buen vino, &c.

Los titulos son antiguos y escelentes, y el rematador dara los demas informes que se le pidan, en el Escritorio Victoria No. 100 (altos) y en su casa de San Vicente los dias de fiesta.
